Using a forbidden alchemical ritual, the Elric brothers attempted to bring their dead mother back to life. But the ritual went wrong, consuming Edward Elric's leg and Alphonse Elric's entire body. At the cost of his arm, Edward was able to graft his brother's soul into a suit of armor. Equipped with mechanical "auto-mail" to replace his missing limbs, Edward becomes a state alchemist, serving the military on deadly missions. Now, the two brothers roam the world in search of a way to regain what they have lost...

In search of the Philosopher's Stone, the Elric brothers break into a top-secret government laboratory, only to meet the mysterious Lust and Envy, who blow up the lab to hide the evidence. Uncertain of the extent of the Philosopher's Stone conspiracy, Edward and Elric decide to return to their old alchemy teacher for advice, taking their mechanic Winry along for the ride...
